

## RUGGED CASE

# INSTALLATION GUIDE

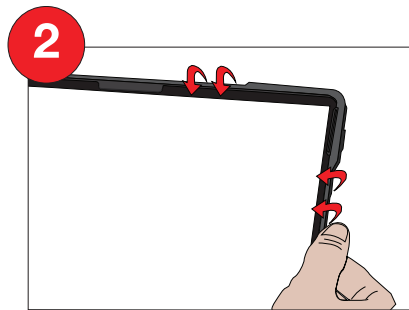

### STEP 1

Gently press the tablet into position from top to bottom (ensure the tablet is installed in the correct orientation allowing for keyboard access).

### STEP 2

Step 2, Carefully adjust the corners and edges to get a firm and uniform fit.

### STEP 3

Keyboard/Cover is able to slot into position.

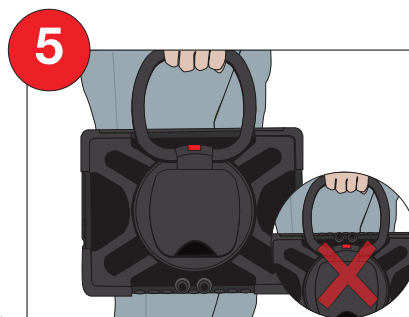

### STEP 4

The kickstand can be used to create different viewing angles when working.

### STEP 5

Where the keyboard connects to the tablet, ensure this is facing upwards and use the elastic loop to secure the keyboard into position. The kickstand can fully open up to double as a carry handle.
